Application – Living Rooms & Bedrooms

Elevate the viewing experience by adding ambient lighting.

- The DIY Color strip can be set to different colors and brightness levels to create the right atmosphere while watching TV or movies.
- Additionally, the ambient lighting can reduce eye strain in a dark room by providing a soft backlight
- The Color strip can be used for decorative purposes to add a personalized touch while the TV is off

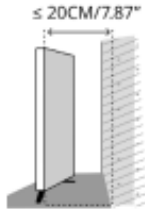

'Do it Yourself' TV Strip – It's Simple, It's Smart, It's WiZ

Installation Guide

Philips Smart Wi-fi LED TV Strip

A. Recommendations before Installation

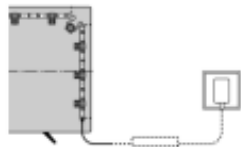

1. Maximum recommended distance/space between the wall & TV unit should be $\leq 20\text{ CM}/7.87''$ for best experience.

2. Before removing the tape, apply the strip to the desired position to size it up.

3. Position the Cable end of the TV Strip near the Power socket for convenience

4. Please ensure there is enough space for you to work on behind the TV or Place the TV on a stable Surface for the installation

B. Installation Steps

1. Wipe the back of the TV unit using a soft, clean cloth to eliminate dust and foreign particles.

2. Paste the TV strip to the back of the TV unit using the double-sided tape provided on the TV strip, starting from one end.

3. Secure the TV strip onto the TV unit using the additional clips provided with the product.

4. Connect one end of the strip to the AC adaptor using the 6-pin connector provided. (You can connect the Strip end closer to the power socket)

5. Plug the AC adaptor into the power outlet and then follow the instructions on the WiZ App to pair the product.

**No Electrician
Required**
